#SamenSterkvoorWerk

More collaboration with the local governments to unlock labour market potentials

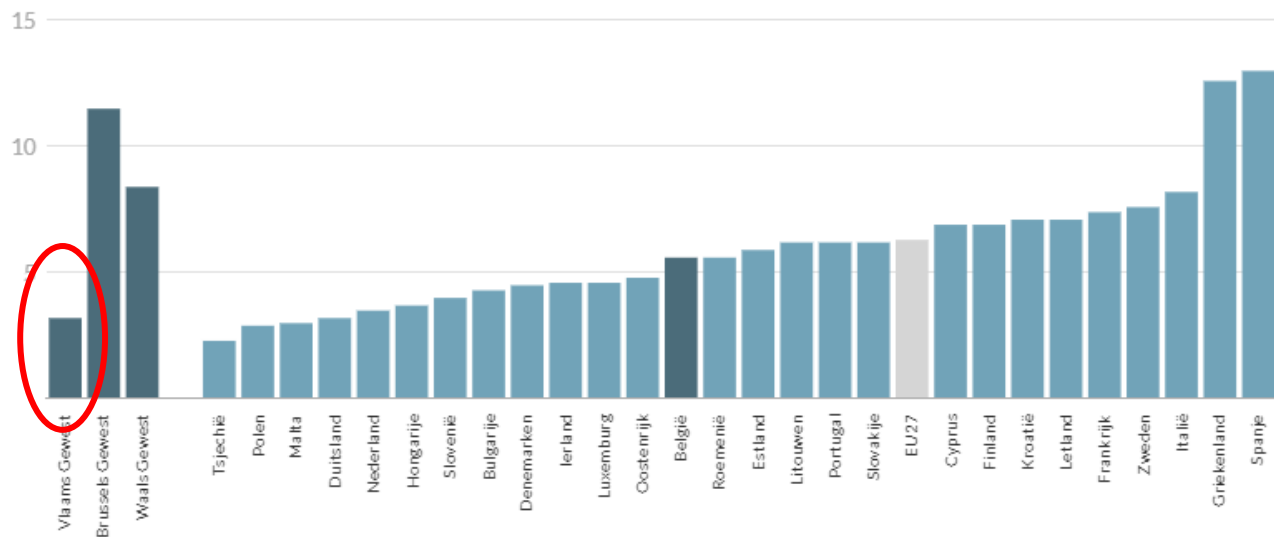

04 09 2024

Public Employment Services in Belgium

Low unemployment

ILO-werkloosheidsgraad van 15 tot 64 jaar
Belgische gewesten en EU-landen, 2022, in %

Not professionally active

For every 100 persons (20-64 year) there are ...

74 at work (full)

03 active unemployed

23 not professionally active

04 Available for work

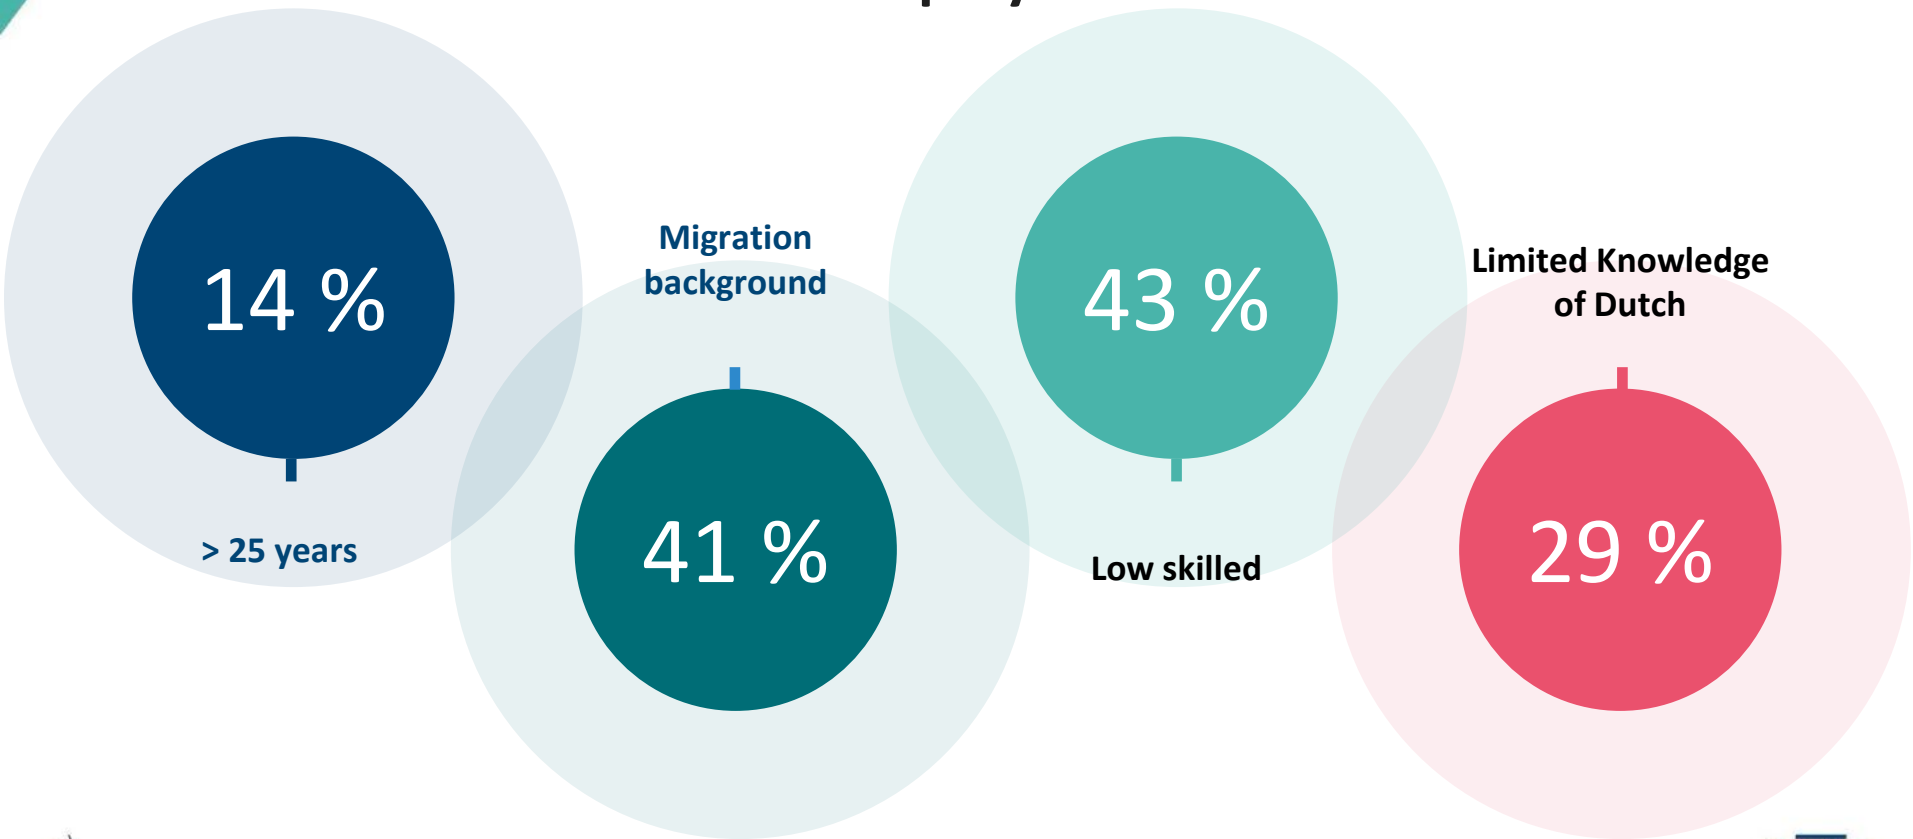

06 Incapacitated for work

05 Housewives and -men

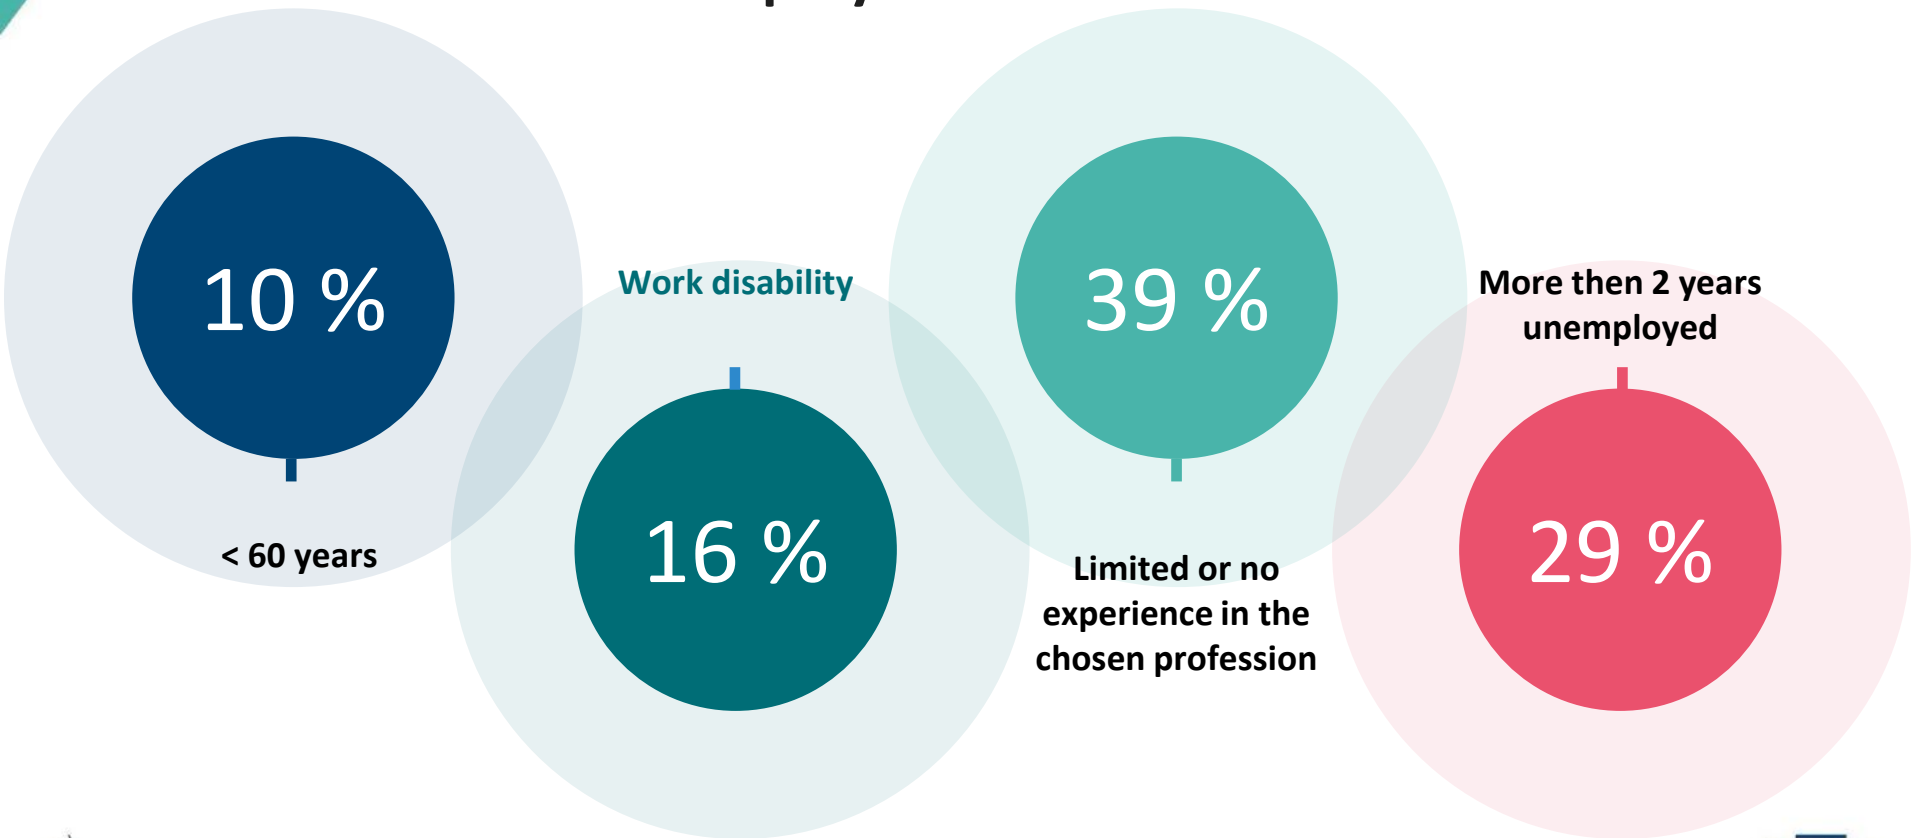

03 Students

05 retired and others

Some characteristics of unemployed customers

Characteristics of unemployed customers VDAB

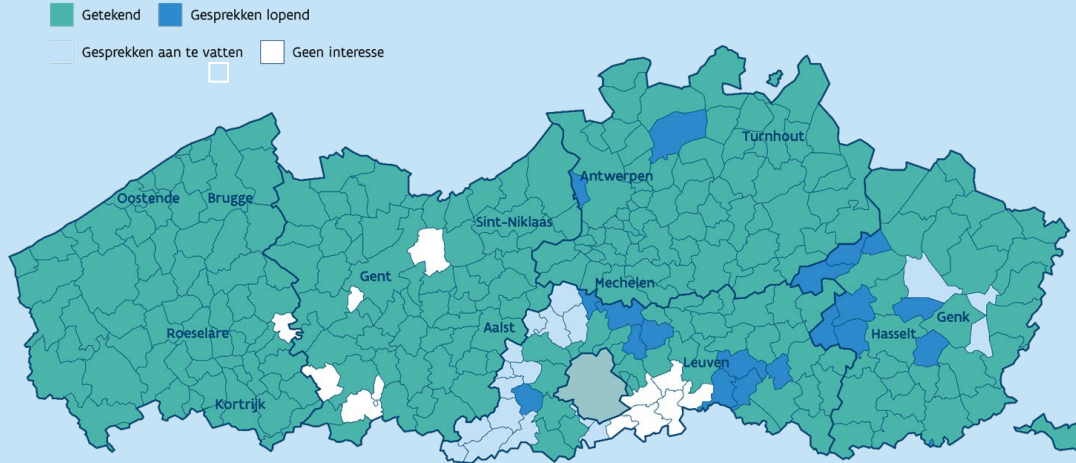

Conclusions

- We need to get more people looking for work
 - There is also a mismatch between 'supply and demand'
 - We need to invest in training and career paths
 - Need for an inclusive recruitment
- Expand reach through more collaboration with local governments*

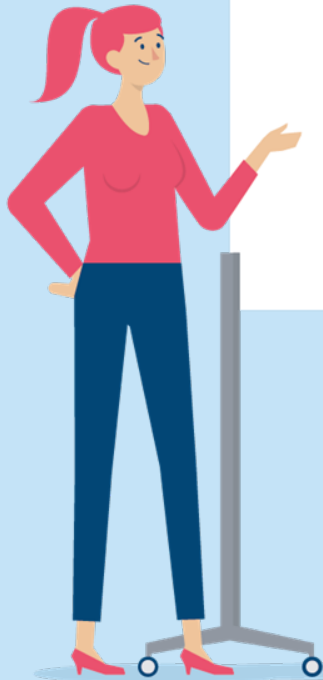

A formal agreement with the local authorities

Evolutie samenwerking lokale besturen:

- 2018: 22%
- 2023: 85%
